

Ohio Center for Substitute Teachers

Ohio School Districts work diligently to provide their students with the best educational program possible. Skilled substitute teachers can and do have a significant impact on the quality of education as they function in the classroom in place of the permanent teacher. Our goal at the School Study Council of Ohio's Center for Substitute Teachers is for all guest teachers to be successful partners in the learning process.

The following school districts endorse the OCST substitute teacher training:

- Bexley City Schools
- Cuyahoga County Educational Service Center
- Fairfield County Educational Service Center
- Grandview Heights
- Licking County Educational Service Center
- Madison-Champaign County Educational Service Center
- Northmont City Schools
- Pickaway County Educational Service Center
- Westerville City Schools

We want to recognize these districts for investing in the educational success of all students by ensuring their guest teachers have the most current information regarding professional and legal issues, as well as, best practices in classroom management and instructional strategies.
